Payment is required at the time of placing your order

## WHY CHOOSE OUR WORMPLANPACKAGE?

Choosing the right wormer for your horse can be very confusing as there are many different parasites with varying life cycles and many different worming treatments available on the market.

The importance of implementing an appropriate worming programme for your horse should not be underestimated. Parasitic worms can adversely affect the health and well-being of horses and ponies of all ages. These internal parasites can do irreversible damage to the gut and other organs and be responsible for poor body condition, colic and in serious cases, fatalities.

At Galley Hill, our worm plan package aims to take the stress out of ensuring that your horse is receiving the correct care and treatment.
